

The strategy of **making 10** means to add two numbers to form a sum of 10. Making 10 is easy for students to make and use as 10s are friendly numbers for students to make.

$10 + 0 = 10$	$10 = 10 + 0$
$0 + 10 = 10$	$10 = 0 + 10$
$9 + 1 = 10$	$10 = 9 + 1$
$1 + 9 = 10$	$10 = 1 + 9$
$8 + 2 = 10$	$10 = 8 + 2$
$2 + 8 = 10$	$10 = 2 + 8$
$7 + 3 = 10$	$10 = 7 + 3$
$3 + 7 = 10$	$10 = 3 + 7$
$6 + 4 = 10$	$10 = 6 + 4$
$4 + 6 = 10$	$10 = 4 + 6$
$5 + 5 = 10$	$10 = 5 + 5$
