

Possible Solution C

Use a place-value chart with place value disks, base-ten blocks, or bundled sticks to show the number. Then show the number again using an open number line.

c) Draw 114 using only hundreds and ones.

$1 \text{ hundred} + 14 \text{ ones} = 114$

Hundreds	Tens	Ones
		

Hundreds	Tens	Ones
		

Hundreds	Tens	Ones
