

### Possible Solutions

The clocks below show the times that Randy started and finished computer class one morning.

Start

Finish

a) Which digital clock below shows a time when Randy was in computer class?

The digital clock that shows a time when Randy was in computer class would be 10:41. The time is 41 minutes past 10 which is after 10:35, the start time, but before 11:15, the end time.

b) Which digital clock shows a time when Randy was not in computer class? Explain your thinking.

The digital clock that shows a time when Randy was not in computer class would be 11:48. The time is 48 minutes past 11 which is after 11:15, the end time.
